### British Sub With All On Board Lost

LONDON, Mar. 23.—(By The A. P.)—The British submarine H-42, has been lost with all hands in the Mediterranean, says an Exchange Telegraph dispatch from Gibraltar today. She collided with a destroyer during maneuvers.

The destroyer was the Versatile. The latest naval list says the submarine, commanded by Lieutenant Douglas Sealey, had a complement of 23 men.

The British submarines of the H class were all built under the war emergency program, most of them in 1918-19. They are of the "single hull" Holland type, modified by the admiralty, 164 1-2 to 171 feet long and 15 3-4 feet beam. They displaced from 440 to 500 tons and are equipped with two sets of Diesel engines, giving a speed of 13 knots on the surface. They carry four torpedo tubes. Their ordinary complement is 22 men.

### Income Revenue To Be \$200,000,000 Short This Year

WASHINGTON, D. C., March 23.—(By the Associated Press)—On the basis of reported collection of income and profits taxes of the March 15 installment, a shortage of \$200,000,000 in the estimated revenues from these sources for the calendar year 1922 was estimated today by the treasury.

### Girls, Dressed In Boys' Attire, Surrender To Hunger After Days Of Mealless Adventure

WASHINGTON, D. C., March 23.—(By the Associated Press)—Pored again to endure to restraints of feminine garb, but still reveling in the ineffable boy's hair-cut and the memory of three days of wild adventure, Gwendolyn Pell, 16, and Jane Evans, 14, high school chums, of Brooklyn, N. Y., were awaiting the arrival of their parents here today to escort them back to their homes. They left last Monday for the eventful excursion.

Hunger, quenching the adventurous spirit, ended the casual travellings of Jane and Gwendolyn here last night after they had viewed the attractions of four cities, slept in a barn and otherwise experienced the independence that masculine attire confers. A S. O. C. call to the respective fathers for more cash wherewith to support the venture was the fatal move that brought detectives to the Union Station, where the girls had directed the funds to be wired, and led to their capture at the request of the anxious parents. The girls, who were engaged in conversation with two unsuspecting policemen when the detectives arrived and penetrated the masquerade of mackinaws, corduroy knickerbockers and green golf caps, were taken to the house of detention, where, the detectives said, Jane murdered a 23 calibre revolver, and Gwendolyn a knife of wicked proportions.

They told the detectives they hadn't had a meal since they left home. This deficiency being supplied, they related to the officers how they had each purchased a boy's outfit of clothing and then gotten a regular boy's hair cut.

Jane told the authorities her father was J. Harry Evans, manager of the Burroughs' Adding Machine Co., in New York.

The five passengers, for whom friends are beginning to express anxiety, are Mr. and Mrs. August Bulte, and Mr. and Mrs. Lawrence E. Smith, of Kansas City, Mo., and Mrs. Dixon of Memphis, Tenn.

### Tidal Wave Inundates City Of Venice

LONDON, Mar. 23.—A Central News dispatch from Venice says that a tidal wave last night inundated the city, the water rising to a depth of more than three feet in some of the public squares.

VENICE, situated virtually at sea level and threaded by canals, is subject to periodic inundations, due to unusually high tides and spring freshets. The squares, such as St. Mark's, are under water at such times, but the rise seldom exceeds a few inches.

### Club Butler Wanted To Make Love To Every Woman, Says Miss Mellon; Ridicules Story

SAN FRANCISCO, CAL., March 23.—(By the Associated Press)—August Probst, former butler at the exclusive Rolling Rock Club, near Pittsburg, who charged that he was the victim of a deportation conspiracy because a young heiress lost her heart to him, "always wanted to make love to every woman at the club," according to Mrs. Richard Mellon, who arrived in San Francisco yesterday.

Mrs. Mellon, wife of a Pittsburg financier, and sister-in-law to Secretary of the Treasury Andrew W. Mellon, pool-poached Probst's assertion that she had advised him to return to Switzerland on account of the romance said to have existed between the young butler and Miss Virginia C. McKay, Pittsburg heiress.

Mrs. Mellon today said Probst's story was "stilly, trivial and ridiculous."

"I have no recollection of ever speaking to Probst except as a servant, who occasionally waited on us at the club," said Mrs. Mellon. "Of course, I knew him as did all members of the club."

"The story is ridiculous on the face of it. I know that my daughter was not mixed up in it and I am certain that Miss McKay is absolutely blameless."

Mrs. Mellon's daughter, Miss Sara C. Mellon, was said by Probst to have enjoyed the confidence of Miss McKay in regard to the affection the butler said existed between the heiress and himself.

According to Probst's story, he was kidnapped by detectives when the romance became known, shipped to New York and held there until he promised to go back to Switzerland.

CHICAGO, March 23.—(By the Associated Press)—Gwendolyn Armour, six-year-old daughter of Philip D. Armour III, died today from a form of septicaemia, after a week's illness, during which the millions of the Armour family, the skill of a dozen physicians, and a host of nurses and the resources of the entire city of Chicago proved unavailing.

### Consider Measure Under Rules Suspension

WASHINGTON, D. C., March 23.—(By the Associated Press)—Passage of the four billion dollar soldiers' bonus bill by the house before adjournment was made certain today with the adoption of a resolution providing for consideration of the measure under a suspension of the rules.

The vote on the resolution was 221 to 121, and was without a roll call. Previously the house had adopted a motion for the previous question by a roll vote of 276 to 126. As the roll call proceeded there was more than the usual hubbub on the floor and those in the crowded galleries, strangers to congressional customs, looked down in surprise as the members milled about, talking and laughing, while the clerk read the 435 names on the list. Those voting were forced to shout at the top of their voices in order to have their vote heard at the clerk's desk.

There was a breaking of party lines on the vote for the suspension resolution. Many of the Democrats who voted in the negative on this motion were counted upon to support the bonus bill on the final vote and leaders were confident that more than the two-thirds majority required under the rules would be obtained.

Chairman Fordney, of the ways and means committee, was at once recognized by Speaker Gillett for a motion to suspend the rules and pass the bill, whereupon the house launched into four hours of discussion. Some members were given only one minute, others two minutes, others three, but by unanimous consent all had time to extend their remarks in the congressional record during the next ten days.

Fight Against "Gag Rule"  
WASHINGTON, D. C., March 23.—A sharp fight against what they characterized as "gag rule" was launched today in the house by Democratic leaders immediately the majority presented their program for passage of the four billion dollar soldiers' bonus bill before adjournment under a suspension of the rules.

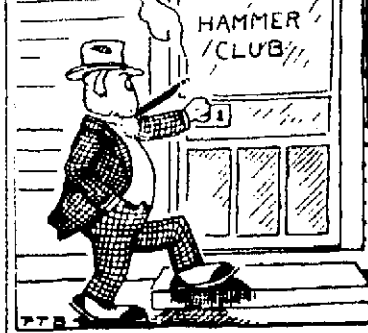

When Chairman Campbell, of the rules committee, submitted a resolution to make this suspension day, Representative Garrett, of Tennessee, the Democratic leader, made a point of order, declaring that it was "the avowed and sole purpose" of Republican leaders to put the bill through in such fashion as to pre-

THE TIMES WEATHER MAN

"This is just the brand of weather folks have been demanding" but they'll say some mean things about the weather man soon as it changes to some thing they don't like. Here's for tomorrow:  
OHIO—Mostly cloudy tonight and Friday. Warmer tonight and in southeast portion Friday. Somewhat colder in northwest portion Friday.  
KENTUCKY—Fair and warmer tonight. Friday mostly cloudy and warmer.  
The extremes in local temperature today were: High, 66; low, 26.

### ENTERED YET IN LONG BEARD CONTEST? DO IT NOW!

THIS is an announcement for men only!

That's according to Shakespeare. For Bill once sat himself down and wrote:

"He that hath a beard is more than a youth, and he that hath no beard is less than a man."

And this story is of interest only to those with hirsute appendages on their chins. For it's just a reminder of The Times' search for the man with the longest beard in the country, which has just begun.

If you're the man, you'll win! Free transportation to California and return, to attend the big "Days of '99" celebration that will be held at Sacramento May 23-28.

A gold medal, to be pinned on your brow, will be awarded to the winner of the exhibition merely for allowing folks at the celebration to see what

the country's longest beard looks like.

Punishy things, beards!  
Why They Grow  
Shakespeare may have been right. Maybe pride is the cause for most of 'em. Some modern experts on beards say pride has been the motivating influence in most cases.

Election bets run a close second. Then, too, there's unrequited love—it has played a part of considerable importance in the national whisker crop.

Some fellows raise a beard just to cheat the barber. Others because they hate the daily face-scrap-

### Daughter Of Philip D. Armour Dies Of Septicemia

CHICAGO, March 23.—(By the Associated Press)—Gwendolyn Armour, six-year-old daughter of Philip D. Armour III, died today from a form of septicaemia, after a week's illness, during which the millions of the Armour family, the skill of a dozen physicians, and a host of nurses and the resources of the entire city of Chicago proved unavailing.

Soldier in Chicago's history have such heroic efforts been made to save a life.

A week ago, the little girl contracted a throat infection. The greatest physicians in the middle-west were summoned. A special staff of nurses was employed in the Armour home on Lakeshore Drive—the "Gold Coast."

As Gwendolyn's condition became worse, city officials were appealed to and orders were issued yesterday to close all traffic on that section of Lakeshore Drive. Special policemen were stationed all around the neighborhood to prevent noise. The homes of Chicago's richest were cut off from traffic communication.

Along toward midnight last night it became apparent that the fight was a losing one and the end came with the little girl's father, vice president of Armour & Company, ten physicians and six nurses grouped at her bedside.

## BOND ISSUE CARRIES DECISIVELY; WILL ERECT NEW SCHOOL BUILDING

Relative to the bond issue voted on in Minford Wednesday, County Superintendent E. O. McCowen issued the following statement today: "Vox Populi, Vox Dei."—Roman Proverb.

The bond issue election in the new school district recently created by the County Board of Education in and about Minford carried by a vote of 301 for and 139 against, the majority being greater than the number of votes that were cast against it. The people of that part of Scioto county are to be congratulated on this tremendous vote for Good Schools.

The carrying of the election means that there will be erected at Minford in the near future a modern high school building, fully equipped to do first grade high school work. No school in Scioto county will provide better opportunities than this new school will when established. Manual training, home economics, a special course in agriculture and the regular academic high school subjects will be offered and the boys and girls of the northeastern part of Scioto county will have what they

have never had before "equality of educational opportunity" with other boys and girls of Ohio, as guaranteed by the constitution of the state. The building will be erected on the idea of making the school the Community Center, that is, like the schools of South Webster, Wheelersburg and other places that have established modern high schools. In the auditorium can be held farmers' meetings and all kinds of public meetings and for the citizens of the community and the surrounding country.

The County Board of Education, consisting of John S. Violet, president; A. B. McBride, vice president; Ord Thompson, William Brant and Al Turner, and E. O. McCowen, secretary, on the wishes of the majority of the people because they said they wanted to establish a high school, created the new district by formal resolution December 15, 1921. The minutes of the meeting of the county board were approved December 31, 1921, at which time Carl J. Hertz succeeded A. B. McBride on the county board. Mr. McBride resigned on account of ill health, after he had been a valued and progressive member of the board since its first organization in 1914. The board of education appointed for the new district were Dr. G. W. Fishbaugh, John J. Dodge, John C. Milam, Louis T. Poole and Charles Helt. These men are well distributed over the new district and are men who have the respect and confidence of their fellow citizens. They deserve credit for their part in bringing about the opportunity for better school conditions. The welfare of the boys and girls will undoubtedly be safe in their hands. The result of this election thoroughly indicates the action of the county board of education as well as of the county superintendent in doing what the majority of the people wanted in school improvement.

In the words of the immortal Lincoln, "With malice toward none and with charity for all," let all who have so charmingly opposed this development now fall in with the voice of the people and become boosters for the good of the community.

## Hard Coal Miners And Operators In Conference In Effort To Reach Agreement

NEW YORK, March 23.—In an eleven hour attempt to halt preparations for a nation-wide strike in the coal industry, the arbitration committee of anthracite miners and operators met behind locked doors today at the Union League Club.

The committee was composed of eight men, four miners and four operators. With them sat two non-voting neutrals, a chairman and a secretary. John L. Lewis, president of the international organization of United Mine Workers, headed the miners' delegation. The spokesman for the operators was S. D. Warner, of the Lehigh Coal and Navigation Company.

**Strike Hinges On Conference**  
Upon the conference will depend whether the 200,000 anthracite workers shall proceed with their 400,000 brethren in the bituminous fields and prepare to drop their tools April 1, while their wage demands are given consideration.

The miners' representatives enter the meeting with little expectation of reaching an agreement to avert the strike. "Of course, we have hope," said Mr. Lewis. "It would be possible for us to conclude an agreement within forty minutes. Such a thing might happen. But I recall that similar wage arbitrations in previous years have taken from four weeks to several months."

**Strike Appears Probable**  
"There is no reasonable doubt, but that the general strike will be called April 1, as scheduled."

Representatives of the operators declined to make any predictions as to the outcome. They continued to maintain strict secrecy concerning the program of wage reduction which they will offer as the basis for a new contract, as opposed to the wage demands of the miners.

Delegates chosen yesterday to attend the meeting of the national general policies committee at Cleveland are preparing to leave for that city tonight. They, with nearly 200 delegates from bituminous unions, will decide upon the distribution of the 10,000 men who will be left in the mines to protect property while the strike is in progress.

Questions of financing the strike also will be decided at Cleveland, and plans laid for distribution of strike benefits in case the cessation of activities continues until it works hardships on the families of the miners.

**Have Several Million "War Chest"**  
Plans will be devised for the assessment of strike dues in local districts to swell the \$2,000,000 "war chest" which union leaders estimate is already available.

Mr. Lewis announced today that the United Mine Workers were still ready and willing to meet with the mine owners in any move to decide upon a new wage scale. His organization was in perfect accord with attempts of the administration at Washington to "urge the operators to change their policy of absolutely refusing to deal with the unions," he said.

Coal distributors of New York today were distributing circulars urging their customers to buy anthracite now, to prepare for a threatened shortage which a protracted strike would cause.

While mine operators were resistant concerning this move, labor men immediately called it "propaganda to dispose of their large stocks, bought at peak prices." The public would not be affected by a strike for at least two months, it was said, as reserve stock piles sufficient for at least that period are now held at the mines and terminals.

## Dodge Found Not Guilty; Jury Out 6 Hrs.

KALAMAZOO, MICH., Mar. 23.—John Dural Dodge, son of the late John F. Dodge, automobile manufacturer of Detroit, was acquitted by a jury in municipal court here late yesterday on a charge of driving an automobile while intoxicated.

The jury was out about six hours. The charge was the outgrowth of a midnight automobile ride March 11, which resulted in the injury of Miss Emmeline Kwakernaak, 19 year old student of Western State Normal.

Dodge, who recently came into possession of \$1,600,000 from his father's estate, also was charged with illegal possession of liquor when Miss Kwakernaak's injury was reported to the authorities and at his preliminary hearing, was bound over to the April term of circuit court.

Miss Sue Stegenga and Miss Ethel Clemons, companions of Miss Kwakernaak, who were in the party, testified at Dodge's trial that he had refused a drink tendered him by Rex Earl, of Kalamazoo, another participant.

Miss Stegenga reiterated this statement at Dodge's hearing today which was held while the jury was deliberating on the charge of driving while intoxicated.

Earl was arrested with Dodge and fined \$50 and costs on a charge of intoxication, and was also bound over to circuit court today on a charge of illegal possession of liquor. While the charge was pending here against Dodge, he served five days in the House of Correction in Detroit for speeding.

## No other phonograph can do it!

No other phonograph even dares the test which the New Edison underwent last Monday, before a large audience at High School auditorium.

That fact is something for you to think about.

The test of comparison with living artists is the only phonograph test which means anything. It is the only way in which a phonograph can irrefutably prove its realism. It is the most drastic of all phonograph tests. To sustain it, requires absolutely perfect realism—nothing else.

Last Monday, the New Edison stood by Glen Ellison's side in High School Auditorium. If you

were there, you heard the living voice and the RE-CREATED voice brought into direct comparison. You know that there was no difference between the two voices.

A similar test was made by Miss Alta Hill with her piano selections. Again the same result—there was no difference between the RE-CREATED performance and the living performance.

By this wonderful performance, the New Edison has placed itself apart from all other phonographs and talking machines. It alone has sustained this drastic test. It alone has proved concretely and conclusively, that it gives you the living performances of great artists.

### Tendered Dinner Party By Officials Of La Belle Co.

The Steubenville, O., Gazette of local interest yesterday said: "The dinner given last night in the grill room of the Fort Steuben hotel by the heads of departments of the La Belle Iron Works of this city and the officials of the Wheeling Steel Corporation was one of the most enjoyable and fraternal gatherings of these men in the history of the corporation. The guest of honor was A. J. McFarland, recently appointed vice-president and general manager of the La Belle, who is now a resident of the city. The luncheon room was attractively arranged and the tables temptingly ones. The three long tables were arranged on three sides, or an open square with a large round table in the center of the square. This center table was decorated with a basket of pink carnations, with asparagus plumes and pink carnations at each place card. Sprays of the fern were gracefully arranged upon the linen. The other tables were also decorated with trailing ferns upon the linen, with pink carnations at each place and lighted with green candles, the tout ensemble being very effective. Harry D. Westfall, vice-president of the Wheeling Steel Products Co., was the popular toast-master and presided in his usual genial and happy manner, for an enjoyable event. A splendid menu was admirably served in keeping with the up-to-date hotel of which Steubenville feels a pride of ownership, and an hour was spent in discussing the admirable dishes, so deftly served. At the close, Toast Master Westfall made one of his characteristic optimistic addresses to the officials and superintendents present, and gave an encouraging word to the general manager of the La Belle, Mr. McFarland, and bade him a cordial welcome to this, Mr. Westfall's home town. This was followed by bright and optimistic addresses from D. A. Burt, president of the Wheeling Steel Corporation; H. B. Beswick, treasurer; J. L. Fisher, auditor; F. M. Work of this city and F. W. Knowles of Portsmouth, Ohio. The keynote was the future of the La Belle Iron Works and the Wheeling Steel Corporation and all complimented Mr. McFarland and wished him success as general manager of this important artery of the corporation. Mr. McFarland made a most pleasing reply and made a favorable impression upon the sixty-five guests present, as they felt they had the right man in the right place. The session was a very happy and optimistic one with genial fraternity and loyal service as the keynote for success. Among those present from out of the city were D. A. Burt, H. B. Beswick, J. L. Fisher, H. D. Westfall, Walter B. Higgins, W. T. Burt, F. W. Knowles, of the Portsmouth plant, and H. M. Rice, purchasing agent of the La Belle.

### COULD NOT TURN IN BED

**Operation Avoided by taking Lydia E. Pinkham's Vegetable Compound**

Dayton, Ohio.—"I had such pains that I had to be turned in bed every time I wished to move. They said an operation was necessary. My mother would keep saying, 'Why don't you take Pinkham's, Henrietta?' and I'd say, 'Oh, mamma, I've tried too much.' One day she said, 'Let me get you one bottle of each kind. You won't be out very much if it don't help you.' I don't know if you will believe me or not, but I only took two bottles of Lydia E. Pinkham's Vegetable Compound and one of Lydia E. Pinkham's Blood Medicine when I began to get relief and I am regular ever since without a pain or a headache. When I lie down I can get up without help and without pain. I can't begin to tell you how I feel and look. I have begun to gain in weight and look more like I ought to. I think every day of ways I have been helped. Any one who does not believe me can write to me and I will tell them what shape I was in. I am ready to do anything I can to help your medicine."—Mrs. HENRIETTA MILLER, 137 Sprague St., Dayton, Ohio.

## Know What You Are Buying

**Do you realize when you buy 12 oz., or 3/4 of a pound of baking powder what it is actually costing you per pound. For instance—**

60c for 12 oz. or 3/4 of a lb. equals 80c per pound  
 50c for 12 oz. or 3/4 of a lb. equals 67c per pound  
 30c for 12 oz. or 3/4 of a lb. equals 40c per pound

**Did you ever stop to figure this out? It is something that every housewife should know because it shows the false economy of buying the 12 oz. or 3/4 pound can of baking powder—it shows the big price you pay per pound.**

**Do you know when you get 12 oz. you are not getting a full pound and what a full pound would cost?**

**Never ask for a can of baking powder—always ask for a pound when you want it.**

**Remember a large can of Calumet Baking Powder contains 16 oz. or a full pound.**

**Buy Calumet because you get more for your money—because it is the most economical of all leaveners—the best by test brand.**

### Rev. Boyd's Flivver Performs Nobly On Its Long Journey To Kansas City

Rev. D. C. Boyd, former pastor of the First Presbyterian church, and father have arrived in Kansas City after a rather strenuous trip in their flivver. Relative to the long journey, the Rev. in a letter to The Times, said: "Thought you would be glad to hear about my trip. Father and I started safely Saturday afternoon at 2 o'clock, after a strenuous week. Today we drove across Indiana from Indianapolis in a driving rain, via many detours. Across Missouri the dirt roads were great, except at the bottom of the hills, where we found ruts and mud. We needed a team only three times the whole way for pulling us out of deep holes, but came near needing it many more times. Our came through without mishap, only changed a tire once."

### Oklahoma Governor And Seven Bank Officials Under Bond On Indictments For Illegal Banking

OKMULGEE, Okla., Mar. 23.—(By Associated Press.)—Governor J. B. Robertson, of Oklahoma, and seven officials of Oklahoma banks were under bond today for trial on indictments alleging illegal transactions between two local banking institutions. Governor Robertson is charged with accepting part of a \$250,000 bribe to place \$150,000 of bonds in the former Guaranty Bank to prevent closure when the bank was known to have been insolvent. Governor Robertson is charged with accepting part of a \$250,000 bribe to place \$150,000 of bonds in the former Guaranty Bank to prevent closure when the bank was known to have been insolvent. Governor Robertson is charged with accepting part of a \$250,000 bribe to place \$150,000 of bonds in the former Guaranty Bank to prevent closure when the bank was known to have been insolvent.

The indictment returned by the district court grand jury against Governor Robertson and the former state banking commissioner charges that Dennis, with the knowledge of the governor made an examination of the Guaranty State Bank in September, 1920, which disclosed that the institution was insolvent.

**Charged With Accepting Bribe**  
 The governor and the banking commissioner, having power and authority under the law to determine the solvency or insolvency of the bank, the indictment alleges, took from John H. Rehbold, wealthy oil operator and vice president of the bank, a bribe of \$25,000, pursuant to an agreement that \$150,000 in state funds would be deposited in the insolvent bank and that "through the influence" of these officials the bank would be allowed to continue business, although insolvent, in violation of the state laws.

**Accused Of Offering Bribe**  
 Rehbold and John P. Cooke, former president of the Guaranty State Bank are under joint indictment for tendering the alleged bribe. Both are charged with accepting deposits in an insolvent bank and, in addition, Rehbold is charged with accepting bribes and borrowing money from the bank while an officer. County Attorney Hepburn, who conducted the grand jury investigation, started off on a vacation today and he announced that the date of trial of the defendants in the banking cases would not be fixed until he returned in a week or ten days.

Outlook For Good Fruit  
Year Promising Say Officials

WASHINGTON, Mar. 23.—The outlook for what farmers call "a good fruit year," is promising in most parts of the United States, according to reports made public today by the weather bureau. Although fruit is not out of danger from freezes in the north half of the country, the general belief is that now spring is really here the American people can look forward to fruit in abundance.

Some harm was done to fruit trees in the western lake region by the glaze storm of March 19, but with the weather favorable early trees are coming into bloom northward to North Carolina and the central portions of Arkansas and Oklahoma, the reports show. Cherry fruit trees

continue in splendid condition in Florida with a heavy crop of bloom holding well. The California orange crop is reported better than was expected.

U. S. Insist On  
Payment Of  
Rhine Bill

WASHINGTON, D. C., March 23.—(By the Associated Press)—Expressing the conviction that its right to payment of the cost of maintaining troops in Germany upon an equal footing with the allied powers was "not only a clearly equitable right but is free from any technical objection," the American government, in identical communications addressed to the governments of Belgium, Great Britain, France, Italy and Japan, has informed them that it would welcome suggestions for the reasonable adjustment of this matter.

Asserting the American government "is unable to conclude that the justice of its claim is not fully recognized," the notes, made public in text here late yesterday, state that the United States "upon receiving assurances of payment" would be "only too happy to proceed to the consideration of suitable means by which its just claim may be satisfied." Pending such adjustment, the notes said, the United States government "hopes that the allied governments will be disposed to refrain from giving effect to any arrangements for the distribution of cash payments received from Germany to the exclusion of the claim of the United States."

## Big lasting suds

—they give the water  
a "soapy feel" all through

Put your hand in a tub of Rinso suds. You can feel that the water is actually soapy all through.

This is one reason why Rinso soaks clothes clean without hard rubbing.

Many bar soaps make frothy, foamy suds. But they disappear when you put the clothes into them, leaving the water as if soap had never touched it.

Rinso suds work down into every fold and fibre,

loosening the dirt, without weakening a single thread. Just a light rubbing with dry Rinso on cuff edges, neck bands and the like, gets them clean—the dirt is so loosened.

Be sure to use enough Rinso to get the big lasting suds, that give the water a soapy feel all through.

Rinso is made by the largest soap makers in the world. It is sold everywhere. Get Rinso today—at grocery and department stores. Lever Bros. Co., Cambridge, Mass.

Rinso does the family wash as wonderfully as Lux does fine things

NOTE: In very hard water it takes from 1 1/2 to 2 packages of Rinso to a tub to make the big, lasting suds that loosen all the dirt.

Parcel Post Blamed For  
Deficit In Mail Handling

WASHINGTON, D. C., March 23.—(By the Associated Press)—Responsibility for deficits incurred by the postoffice department in the handling of the mails is attributed largely to the parcel post system, according to data collected by the joint postal commission which has been conducting a nation-wide investigation into the cost of the handling of all classes of mail matter. Conclusions of the commission are to be submitted to congress next fall, after further investigations have been completed, it was announced today.

Members of the commission and officials of the post office department declared the parcel post to be indispensable to the country, but asserted that some system should be devised to establish it on a paying basis. The commission has not yet determined finally, it was said, to what extent the postal deficit is attributable to the parcel post, but the fact that its operation had made inroads into postal appropriations had caused concern for some time, officials said.

Killing Bachelor

YOUNGSTOWN, O., March 23.—Iona Linder, aged 15, is being held today for further inquiry into the killing of John A. Duncan, 60, a bachelor, by a rifle in the hands of the girl. Miss Linder declared that the shooting, which occurred in Duncan's rooms, was an accident, but afterward made damaging accusations against Duncan, who lived next door to the Linder home. She said she had been on intimate terms with Duncan for several months, reading and singing to him. The rifle was discharged, she said, when Duncan put it into her hands, saying that he was going to teach her how to use it.

## Miss Dolly Wise

She is here to answer any and all questions concerning love, matrimony, troubles, woes, etiquette, etc. Inquiries should be addressed to Miss Dolly Wise, care The Daily Times, Portsmouth, Ohio.

Dear Dolly—I am a young man of 22 and have been going with a girl for more than two or three times a week. You could call on her on Sunday night and take her to the show on Wednesday night and let it go at that unless something comes along in the meantime that you want to see of course if you can afford to go once a week, all right, but if you can't afford it, tell her so, and then you will find out whether she cares for you or is just going with you for a good time, or what she can get out of you.

Don't take her to the show every night, and don't make a date with her more than two or three times a week. You could call on her on Sunday night and take her to the show on Wednesday night and let it go at that unless something comes along in the meantime that you want to see of course if you can afford to go once a week, all right, but if you can't afford it, tell her so, and then you will find out whether she cares for you or is just going with you for a good time, or what she can get out of you.

Dear Dolly—I am a widow and I own property. Do you think I can sell it? I am between the age of 50 and 55. Do you think I can marry again?  
BROWN EYES  
You can sell your property if the title is clear. You can also get married if you can find a man who will suit you. If you let 'em know that you have some property, every eligible and ineligible man for miles around will be after your hand—or hand.

Dear Miss Wise—Please tell me how to make a nice cream pie, so when I cut it it won't stick to the knife and pull all the icing off.

BETTY ANN  
Cream Pie—One pint milk, yolks of two eggs, two tablespoons of corn starch, three tablespoons of sugar, wet the starch with a little cold milk, beat the yolks and sugar together and add to the boiling milk, add a lump of butter and flavor. Take whites of two eggs for frosting. Bake your crust, then add this mixture, then frost. Let pie get cold or hot.

Dear Dolly—I see in Monday night's Times where H. M. J. is giving advice to the girls of Portsmouth. Now, Dolly, all we have to say is this: That if the fellows don't want to see the girls run around alone why don't they put a stop to it and make dates with them and take them some place themselves. No, indeed, they don't want to do that. Too many of them are cheap skates. The only thing they want to do is on Sunday night when there is no place to go or on nights when it is too cold to loaf around. You can see for yourself that on cold nights popular loafing places are vacant and on a nice evening there is always a large bunch of young men around. As for girls going down town looking for a fellow to take them for a ride or to take them to the show, they might take them for a ride but very few take them to a show. They will either wait until she comes out or go in the show after she has gone in and paid her way. And young fellows need not forget that if they should ask to see a young lady home and she would tell him politely that she could get home the way she came down, they

would be very much insulted, their feelings hurt, and would probably make some insulting remark to her. Now, Dolly, if these men would stay home as they expect girls to do until they have some legitimate business on the streets, I don't think they would be always seeing these so-called pointed up beauties whom they are so afraid will catch the flu if they don't dress warmer. Why don't they stay at home and entertain their sisters or take them to the show or down street and they would not be running around alone or with other girls. We certainly appreciate the fact that they take so much interest in us, but we are afraid that there are just as many men that have the flu as women and then, too, if women haven't enough sense to dress warm enough it is their own lookout. We girls are very sorry that we don't suit this young man and his friends but we won't worry about it, nor sit at home either, but we do hope that they get enough standing on some corner holding up a post or building criticizing other persons' looks and actions instead of being about their own business or at home where they should be unless their so-called legitimate business has called them out.

INDIGNANT GIRLS  
Dear Miss Wise—I am a daily reader of your column and I have been noticing the past few weeks that some of the supposed gentlemen (Smart Alex) have been making remarks about the girls, and I only want to say that if some of the little "Pussy-Willows" that stand around on the street corners for the special purpose of making remarks about the girls and trying to lead them astray would get a job and go to work or stay at home with their mothers, where about three-fourths of them belong, they wouldn't have so much spare time to devote to standing around watching for short skirts, powder, paint, etc., and furthermore if the young men of today had higher ideals they wouldn't go so far as to write about the girls as they have for the past few weeks. It looks to me that they would get enough of it by standing on the street corners. The lunch that makes it their business to do such things is, in my

opinion, just a lot of "buns." Now, Miss Wise, I don't mean to insinuate that the young men are all alike for I'll have to admit that there are a few that have a little respect for the young girls of today. I want, also, to say that I think if the young men had a little more respect for the girls and would at least let them walk on the street in peace that they would have more respect for themselves.

## BEGIN HERE TODAY

The gang of cattle thieves and politicians who elected good-natured BILLY WINGO sheriff of Golden Bar when they thought he was too easy-going to interfere with law-breaking, have suffered a sad awakening.

HAZEL WALTON, whom Billy loves, saves him from being shot from ambush by JACK MURRAY, a member of the gang, but the lovers quarrel when Billy refuses to avoid danger by resigning from office.

RAFE TUCKLETON, wealthy cattle-thief, hires DAN SLIKE, professional badman, to kill Billy and

TOM WALTON, Hazel's uncle and an honest ranchman.

TOM DRIVER, local judge, and ARTHUR RALE, district attorney, are partners in Tuckleton's scheme.

TIP O'GORMAN, another politician, refuses to take part. Billy receives a note signed by Hazel to the Walton ranch. He is suspicious and forces Judge Driver to wear his clothes and approach the house on horseback. Billy crawls to a window and sees Tom Walton dead on the floor.

JUDGE DRIVER goes to the Walton ranch where Billy, watching him, tells him he will not shoot him. When Billy commands him to surrender, Slike kills Driver and in turn is badly wounded by Billy and put in the calaboose.

SIMON REELFOOT tells the district attorney he thinks Billy suspicious and threatens to tell the story unless he is protected.

Rafe and the district attorney discuss the getting rid of Tip O'Gorman.

SAM LARDER and Crafts. The latter three kidnap the sheriff and plan a hold-up of the stage for the purpose of making it look like Billy did it but the sheriff, a prisoner, suddenly upsets their plans. Billy escapes from the trio after a desperate fight just as a gang of the crooks' pals dash up on horse-

back. Hazel Walton throws a knife at NATE SAMSON for accusing Billy of the stage holdup. Later Hazel is hit on the head with a revolver and killed by Slike when he called at her ranch to get something to eat.

Slike took Hazel's horse after getting what he wanted to eat. On her return to the house Hazel found Rafe Tuckleton in the kitchen. He accused her of entertaining Billy Wingo there, didn't believe Slike had been there and then told her he was going to carry her off for a wife. When she resisted him, a fierce fight followed ending when a big clock fell on Tuckleton and knocked him unconscious. Later Tuckleton was found by the district attorney in a road.

There he lay on his back, his legs and arms spread-eagled abroad, his body displaying the flattened appearance a corpse assumes for the first few hours after death. Rafe's throat had been slit from ear to ear. His head was cut open and lay in a pool of blood. His face was scored with scratches. There was blood on his coat and vest and shirt. They found on examination. The district attorney ripped open the shirt and found four distinct stab wounds in the region of Rafe's heart. From one of these wounds protruded the broken end of a broad-bladed knife.

"Pull it out," urged Sam Larder, with a slight shudder, his fat face so white that it showed green in the moonlight.

"Been dead about two hours," proffered the marshal.

"About that," agreed Felix. "What you lookin' at, Arthur?"

"This," replied the district attorney, holding up the handle of the butcher knife.

With his fingers he traced two initials on the wood. The initials were "T. W."

"You can't tell me," said the district attorney, beligerently. "That this butcher knife didn't come from the Walton ranch."

Sam Larder stated his belief at once. "She couldn't have done it,

## Money Back If "Gets-It" Fails

Nothing is so utterly needless as the suffering from itching, painful corns.

As easy to peel off a corn as to skin a banana. Touch it with "Gets-It" and the corn is gone. For hard corns, soft corns, any corn or callus. All pain stops instantly and the corn proceeds to loosen and soon can be lifted right off. Your money cheerfully refunded if it fails. But it never fails. Costs but a trifle. E. Lawrence & Co., Mfrs. did, and it was him took the supplies and her horse and her hat and that very same butcher knife which gave Rafe his come-uppance. Slike beat her almost senseless too, she said.

Billy Wingo looked up at the stars. His lips moved. But no sound issued. After a moment he said, in an odd dead tone of voice. "How did Slike escape?"

"Far as anybody can tell, he made him a key somehow and unlocked the jail door and walked out. Anyway, Billy Tyler found the door open yesterday afternoon and Dan's cell empty. And the district attorney lost a horse and saddle."

"If there was any kind of a trail it's queer they didn't run up on Slike at Hazel's."

"That's the funny part of it. The trail led in the opposite direction toward Jackboro. The posse followed it clear to the West Fork of the Wagonjack, where they lost it on the rocky ground on the other side."

Billy Wingo stiffened where he sat. Hazel Walton in jail. For an instant he couldn't realize it.

"What evidence is there against Hazel?" Billy cut in sharply.

"In the first place, there's the knife that killed Rafe," said Guerilla, seating himself beside his friend in the shadow of the rock. "Butcher knife with T. W. on the handle that Hazel admitted was hers when they showed it to her. But she said Dan Slike had taken the knife—stuck it in his boot when he left. Then there was Rafe's own gun which Hazel had lying on her kitchen table, showing he'd been there. She admitted that, too, but said he'd attacked her, and she'd managed to get hold of his gun after the clock fell on him, and drive him out."

"Is that all," asked Billy.

"Looks like my breath," Guerilla began indignantly. "No, it ain't all. The district attorney says those supplies were bought for you and they were taken by you. Hazel's ridin' horse, the one used to be her uncle's, that's gone too—with you."

"If Rafe thinks I was at Hazel's, it's reasonable to assume I might have had a hand in killing Rafe my own self. That goes double for Dan Slike, seeing he had the knife last."

"It's reasonable all right enough, but then you and Dan Slike ain't no ways available, and Hazel is right handy."

"But how did Slike get hold of the butcher knife, that's what I want to know? He didn't have it on him when I arrested him last January."

"That's the damndest part of the whole deal, Bill. Hazel says Dan Slike came to her place before Rafe."

"Is that all," asked Billy.

"Looks like my breath," Guerilla began indignantly. "No, it ain't all. The district attorney says those supplies were bought for you and they were taken by you. Hazel's ridin' horse, the one used to be her uncle's, that's gone too—with you."

woods, and that a ninety-foot pine had fallen upon his chest.

The something on his chest spoke in a carefully restrained whisper. "Keep very quiet."

The district attorney would have shivered had he been able to move that much. He knew that voice. It belonged to Billy Wingo.

"I hear you arrested Miss Walton."

"I—er—I had to," explained the district attorney.

"No evidence at all. You were too previous, Arthur. I've got a sneaking idea, old settler, that you are clattering up the face of the earth. Be reasonable now, don't you think so yourself?"

No reply.

"You're thinking because I'm talking to you so bright and merry that I don't mean what I say. Listen—" the whisper lost its airiness and became a ruthless, snarling growl—"listen to me. Because of what you've done to her, it's all I can do to keep from strangling the breath out of you here and now."

Billy paused. "About Miss Walton," he continued in his former tone. "I'll give you your choice. If she isn't out of jail and the warrant against her withdrawn by noon tomorrow, I give you my word that I'll down you on or before midnight Sunday. And I have a habit of keeping my promises."

"All right," capitulated the district attorney.

CHAPTER XVI

A MONTH had passed and Billy Wingo, now far south of Golden Bar, knew that his quest was nearly ended. In the past four weeks Billy had grown a presentable beard, had met up with Johnny Dawson, a friend of his youth, and had three times crossed the trail of Dan Slike. His latest information

was that Slike and Jack Murray were inseparable.

Finally the morning came when Slike in their grasp. They could hear his rifle as they gazed down from the hill on a scene that had many counterparts in the west.

A quarter-mile out from the base of the hill was a tug fire, beyond which lay a hog-tied calf. Beyond the calf a man sprawled behind the body of a pony. He was aiming a rifle at another man ensconced below a cutbank bordering a small creek. This second man was not clearly visible.

Between this man and the man behind the pony were three hundred yards of ground as flat as a floor. Billy swept the background of the cutbank man with his glasses.

"There are two horses tied behind a windfall alongside those rocks. Where's the other man?"

"There's the other man," said Dawson, pointing fifty yards down stream from the cutbank. "What's he doing—drinking?"

Billy turned his glasses. "He ain't drinking," he said soberly. "His head's under water."

"I'm sure hoping he ain't. Dan Slike," Dawson said matter-of-factly. "Me too. What—"

For the man behind the cutbank was climbing up and walking out into plain sight of the man behind the pony. The man behind the pony did not fire.

"He's cashed all right," Billy remarked suddenly. "He looked so natural he fooled me."

They ran down the reverse slope of the flat-topped hill, cut across the creek and approached the horses tied behind the windfall.

"Tell you," said Dawson, "loosen the cinches; then no matter which horse he tops he'll jerk himself down."

Both saddles were carefully doctored.

A MONTH had passed and Billy Wingo, now far south of Golden Bar, knew that his quest was nearly ended. In the past four weeks Billy had grown a presentable beard, had met up with Johnny Dawson, a friend of his youth, and had three times crossed the trail of Dan Slike. His latest information

was that Slike and Jack Murray were inseparable.

## Murderer Is Insane

COLUMBUS, O., Mar. 23.—Governor Davis is expected to commit Edward Moffett, of Akron, sentenced to be executed at the Ohio penitentiary early Friday to the Lima state hospital for the insane today, following the decision yesterday of Judge Homer Z. Bostwick in probate court that Moffett is insane.

An opinion in which they declared they believed Moffett insane was filed with the judge yesterday by Warden Thomas, Dr. Willis A. Whitman, of the prison medical staff, State Welfare Director MacAyeal and Chaplain Reed.

Judge Bostwick immediately ordered a lunacy hearing and appointed two local doctors to make an examination. They declared Moffett mentally unsound. Moffett was 9 to 12. Music will be furnished by found guilty of wife murder.

# Anniversary Celebration Sale

## A Year Ago

ATTEMPTING something impossible was what nineteenth-century people said and thought about this store when it opened a year ago, all new—with its plans untried and not formulated.

We resolved, however, to try. Had we not made the attempt we would not have accomplished what we did so far. Through all these trying months we have been between the hammer and the anvil in forging out, shaping and reshaping what existed only in the mind as an outline and is now shaped to be seen with the naked eye.

We now realize that the best workman is made best by working, and we believe that practice makes — if not perfect — something closely approaching perfection. And for the latter we shall always strive.

Kline's

## Today —

WE are not only satisfied, but delighted with the results and are greatly encouraged to go further and further with our value giving and service, hence our Celebration Sale.

Come to inspect, to compare values, to buy, or just to "look around"—you will be heartily welcomed as though you were in your own home.

Be one of our guests and help us celebrate our first year's achievements — and let's make this an annual affair.

We have anticipated this celebration — the day when our store was actually born, and we planned for two months ahead a merchandising event that is certain to create wide-spread interest.

Kline's

**Friday, March 24th We Shall Inaugurate A Most Powerful-Value-Giving Event Commemorating The Founding of Our Store---All Departments Involved (Excepting Shoes)**

THIS SALE, coming as it does—before the season has hardly started, should prove very popular with every woman and miss in this community who appreciate extraordinary values.

Every department will contribute its share—nothing is reserved—nothing excluded. Every article must present a real saving regardless of its cost or worth.

The demand for such values will be very great and while stocks are large and complete, they may not afford as good assortments later as the Sale advances. That alone should command your attention.

Because this is our First Anniversary Celebration we're going to make it an occasion to be remembered for its unprecedented offerings. Extra salespeople will be on hand to insure prompt service.

WE DO NOT expect to make money on this Sale! The apparel is marked too low for that! What we do expect is to tell you of styles that are UNCOMMON and of a personal service that is as helpful and sincere as it is rare! And a system of pricing which offers matchless values.

This advertisement is not intended to persuade you to buy apparel here—that you will find ANYWHERE. It is to impress you with the unusual variety of styles and the marked moderation in prices offered by this premier establishment of specialty shops.

This Anniversary Celebration is the means by which we hope to express our gratitude for the good will and confidence we have enjoyed.

## MAKING IT CLEAR!

The well known system of offering a DISCOUNT FROM THE REGULAR PRICE is an important improvement over the old method of re-marking merchandise at Sale Prices. There can be no "catches" or reservations to this offer—for you know instantly just what you are gaining. YOU DEDUCT THE 20 PER CENT DISCOUNT YOURSELF. Price tags are NEVER changed here. The original tag remains on each and every item. Discount is figured at time of purchase.

# 20%

## DISCOUNT

Throughout The Entire Store!

## THE DISCOUNT SCHEDULE

For an example: If the garment you wish to purchase is marked \$25.00 you get the twenty per cent deduction and pay \$20.00. This is equal of course, to one-fifth off. To illustrate this further we will cite other instances:

**\$20.00 Garments, less the 20 Percent Discount \$16**

**\$15.00 Garments, less the 20 Percent Discount \$12**

**\$10.00 Garments, less the 20 Percent Discount \$8**

This offer applies to every item (excepting shoes) in the store regardless of whatever the prices may be—\$75.00 or \$1.00 you pay only 80 per cent of the original marking.

# SEVEN HUNDRED TONS OF STEEL ARRIVE FOR NEW ROD AND WIRE MILL

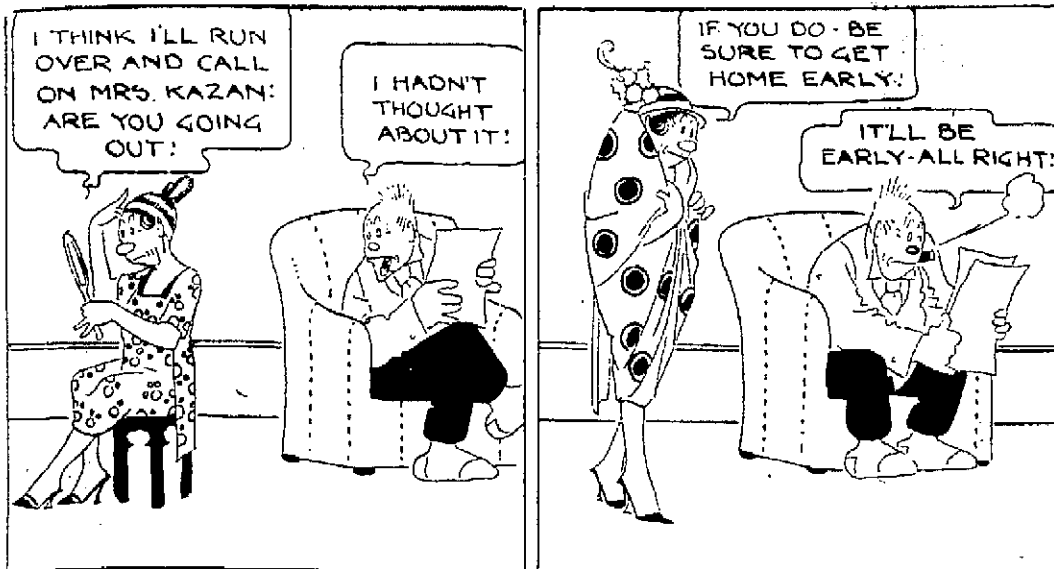

That the new rod and wire mill being erected by the Whitaker-Glessner company west of West avenue in New Boston is soon to become a reality, was made certain Thursday when two barges of structural steel arrived from Pittsburgh. They contained 700 tons, a sufficient amount of steel to fill 35 railroads, and shows that once the superstructure work is under way it will be rushed to completion. All of the preliminary work has been finished, it was stated at the plant today and The McClintic Marshall company of Pittsburgh, who have the contract to build the plant proper, have some of their men already on the job and expect to have a large force shortly.

Once the super-structure work is started, it moves very rapidly. Supt. Toohy, who is looking after the construction of the new mills, which will round out the Whitaker-Glessner plant and make it one of the most modern in the country, says the mills should be well under way within four or five weeks. The tedious preliminary work has been cleaned up and everything is in line shape for an uninterrupted drive on the structure proper.

It has tremendous dimensions and when completed will give employment to hundreds of skilled workmen. These men are all well paid mechanics and the completion of the plant will mean much to Portsmouth.

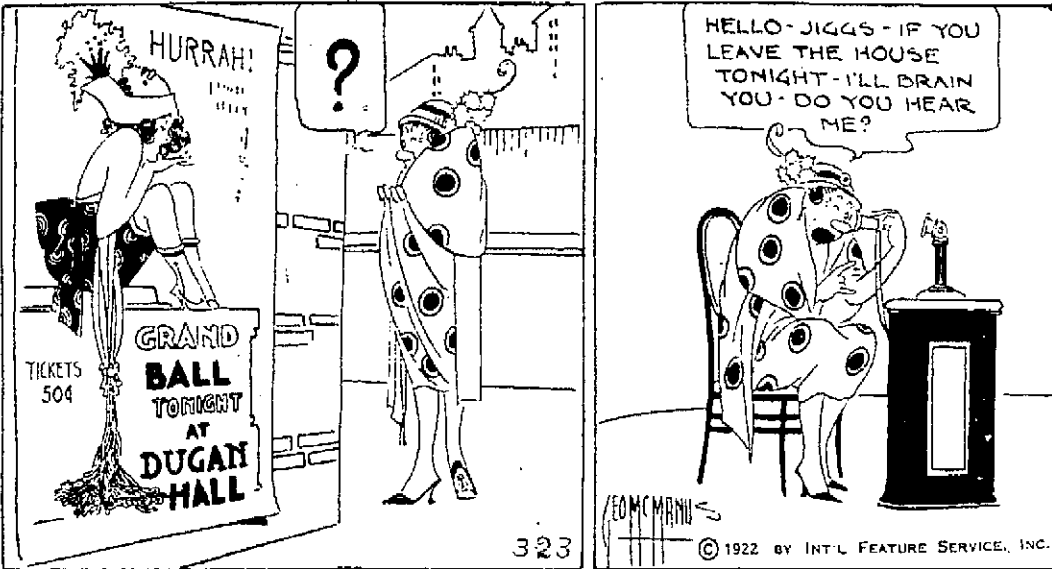

It will mean that with the influx of several hundred skilled rod-mill workers and their families, more homes will be needed. Probably few realize the enormity of importance of the rod and wire mill, but will quickly grasp their massiveness after the great body of steel begins to proudly erect its head over the lower end of New Boston.

## Common Sense About Eczema and Eruptions!

Here's Something About S. S. S. That You'll Be Glad to Hear.

You might just as well know it right now—the cause of skin eruptions, pimples, blackheads, boils and so on, is right in the blood. There is no getting away from it. Science has proved it. We prove it. You can prove it. When the cause of skin troubles and eruptions is in the blood, it isn't coming from the skin.

Let S. S. S. Give You An Angelic Skin! A bottle of S. S. S. will prove to you what is happening in your blood. S. S. S. is a scientific blood cleanser. It drives out the impurities which cause eczema, tetter, rash, pimples, boils, blackheads, blotches and other skin eruptions. When these impurities are driven out, you can't stop several very nice things from happening. Your face turns naturally rosy. Your eyes sparkle, your complexion clears. It becomes beautiful. Your face looks like that of a prosperous, ruddy, well-fed, refined gentleman, or if you are a woman, your complexion becomes the real kind that the whole world admires. S. S. S. is also a powerful body-builder, because it builds new and more blood cells. That's why it fills out sunken cheeks, bony necks, thin limbs, helps regain lost flesh. It costs little to have the happen to you. S. S. S. is sold at all drug stores, in two sizes. The larger size is the more economical.

## DISTRICT SCHOOL

Thursday evening at seven-thirty in the United Brethren church basement the Intermediate Christian Endeavor Society will present a program of fun that will be enjoyed by young and old alike. The program as prepared will take the old folks back to the days of the "little old school house on the hill" when "spelling" books and "Singin' Schools" were about the only amusements the country community afforded.

The District School at Blueberry Corners is an apt illustration of the rural district school and community life of fifty years ago with their varying degrees of quaint humor, pathos and seriousness. The L. C. E.'s have been working hard on their parts and an evening of fun is assured all who attend. Tickets may be purchased of the Senior citizens, or from Streich's Pharmacy, Mueller Meat Market and Braund Book Store for fifteen cents.

If enamel and linoleum could tell what they think of lice and strong soaps, we couldn't print it. Use Blue Devil.—Advertisement.

# DEATH CALLS REV. DAVID TAPPAN

Mr. David Tappan, former beloved pastor of the First Presbyterian church of this city, passed away at his home in Los Angeles, Cal., Wednesday. He had not been in good health for some time, but his condition was not considered serious. Death was attributed to complications.

Dr. Tappan was for 10 years pastor of the First Presbyterian church here and the city never had a more capable or more popular minister than he.

News of his passing away was conveyed in a message to his brother-in-law, George Grand-Girard of Circleville received yesterday. It gave no details of Dr. Tappan's death or where burial of his body will be made.

The news of his passing away will not only bring sorrow to the hearts of his former parishioners, but to hundreds of other citizens here who knew Rev. Tappan intimately and regarded him as a most capable pulpit orator and a progressive citizen. His pastorate of the First Presbyterian church was singularly successful and it was with keen regret that he and his estimable family left Portsmouth. Rev. Tappan had led a retired life in Los Angeles for some time.

Rev. Tappan is survived by his widow, Mrs. Anna G. Tappan, and the following children: Dr. Paul Franklin of Dayton, Ohio; Mrs. Oella Lowman and children, Oella Mae and Lucy, who have been making their home with their parents since the death of her husband many years ago; Mrs. Julia Tappan Langsdorf, wife of Professor Langsdorf, of Pasadena, Calif.; David L. Tappan, missionary in China; Frank Tappan, at Norma, Oklahoma; George, in Schenectady, N. Y.; Miss Helen Tappan, who is teaching in a college at Ames, Iowa; and Miss Margaret Tappan, who is teaching in a University in Oregon, Utah.

Two sons and a daughter, Benjamin, Edwin and Lucy, preceded him to the Great Beyond. Edwin died while the family resided in Portsmouth. "Rev. Tappan was born April 2, 1845 in Steubenville, a son of Dr. Benjamin and Oella Stanton Tappan. He was the third of a family of five children. He attended the public schools of Steubenville until September, 1860 when he entered the Freshman Class at Miami University. He was a faithful and diligent student and learned all there was to be learned. It was known all through his entire course that he had the ministry in view. He took the first honors in a class of twenty-five at graduation in June, 1864. Directly after his graduation he took up the study of theology in the Western Theological Seminary at Allegheny, Pa., and graduated in April, 1867. In the summer of 1865 he had charge of the State Lick Academy in Armstrong county in Pennsylvania. An orthodox Presbyterian licensed him to preach in the Spring of 1869. In September, 1867, he took charge of the Christian Presbyterian church in the Presbytery of Des Moines, Iowa. On August 12, 1869, he was united in marriage to Miss Anna Grand-Girard, daughter of a minister at Hillsboro, Ohio.

In February, 1871, he took charge of the Presbyterian church at Mt. Pleasant, Iowa, where he remained until April, 1880. While in Iowa, he was honored with the offices of Moderator and Permanent Clerk of his Presbytery in turn. He was permanent clerk of the Iowa Synod South, from 1870 to 1882, when the two synods were consolidated. In 1882, he was made Stated Clerk of the Synod of Iowa, and served until his removal from the state. While a resident of Iowa, he received the honorary degree of A. M. from Wooster University. He received the Degree of Doctor of Divinity, from Lehigh College, Iowa, in 1886. While a resident of Iowa, he was a contributor to the General Assembly of his church three times. He was for six years president of the school board of Mt. Pleasant, Iowa. From 1887 to 1890, he was a Trustee of the Presbyterian College at Fairfeld, Iowa. On April 1, 1890, he took the pastorate of the First Presbyterian church of Portsmouth, Ohio, the largest and strongest church in the Presbytery of Portsmouth. He held this until September 1, 1899, when he became President of the Miami University.

In the Presbytery of Portsmouth, he was the leader among his ministerial brethren. He was often Moderator. In 1893, he was a commissioner to the General Assembly from the Portsmouth Presbytery, and was one of the Clerks. He was chairman of the Committee on Home Missions in the Portsmouth Presbytery during his entire connection with it. In the Synod of Ohio he was for three years chairman of the Committee on Education, and for three years was chairman of the Committee on Home Missions. In November, 1909, he received the degree of LL. D. from Wooster University, Ohio.

## Rabbi Wise To Speak Here For Benefit Of New Temple; Work To Be Started Soon

Work will be started in the course of a few weeks on the new Jewish Temple, which is to be erected at the northeast corner of Eighth and Gay streets, by the local Jewish congregation. According to the plans of Albert Pretzinger, a Dayton architect, it will be a modern house of worship in every respect. Furthermore, the wife claims, that because of the alleged inhuman treatment she has been forced to and is now living apart from him.

## CONSTIPATION YIELDED QUICKLY

man 83 Years Old Tells of Using Nerv-Work

This is such a remarkable case and this man tells his story so well we are going to give it to our readers. Just as he told it to us in a letter: "I am a cigarmaker, 83 years of age and didn't expect to find anything to relieve me of constipation, and I could not sleep soundly at night. It was very wonderful and I wish everyone who suffered as I did would give it a trial."

Almost every druggist has Nerv-Work and sells it at a dollar a bottle, on a positive guarantee to cure the money back if the first bottle does not give encouraging results. It is always to be found in the Fisher & Street drug store in this city. ### Has Powerful Influence Over Rheumatism

Suggests Guarantee First Pint Bottle of Allenbur's to Show the Way to Complete Recovery

Dr. Wm. H. Shppard will commence his service in Union Chapel Saturday and Sunday.

Mr. and Mrs. Joseph Turner have guests Sunday, May 29th and Mrs.

Dr. James H. Allen, of Congress  
man, Rochester, N. Y., suffered from  
this terrible rheumatism many times  
the terrible disease left him helpless  
unable to move.  
He finally developed after years of  
useless study that no one can be  
cured from rheumatism until the nature  
of the parasites causing the ailment  
and deposits are discovered in the  
blood and muscles and expelled from  
the system.  
With this idea in mind he consulted  
science, made experiments and finally  
discovered a new preparation that  
quickly and completely banished every  
kind and symptom of rheumatism.  
He freely gave his discovery, which  
he called ALLEN'S RHEUMATISM CURE,  
to the world when it was called  
rheumatism destroyer. After years of  
trouble he decided to let suffering  
people know about his discovery  
through the newspaper and instructed  
agents to guarantee a full refund  
if the cure above stated. All druggists

# ROY CHAMBLIN WHO WILL DIE AFTER MIDNIGHT CALM AND COOL

## Requests No "Last Meal"; Has Been Unpopular, Report

COLUMBUS, O., Mar. 23.—Edward Moffett, convicted Akron murderer, who was to have been executed tonight along with Roy Chamblin, of Portsmouth, was granted a 60-day reprieve this afternoon by Governor Davis in Cleveland.

Moffett yesterday was adjudged insane by the probate court of Franklin county, after attorneys had examined his mental condition and pronounced him insane. The governor's reprieve will give further time to consider Moffett's mental condition and to determine what shall be done with him finally.

COLUMBUS, O., March 23.—(By the Associated Press).—Although there was considerable doubt whether Governor Davis would grant a reprieve to Roy Chamblin, the governor's office indicated today that Governor Davis would not interfere in the case of Roy Chamblin, Portsmouth murderer, who is under sentence to die in the electric chair shortly after midnight tonight.

Moffett yesterday was adjudged insane by physicians of the Franklin county probate court, and Governor Davis has been asked to send him to the criminal insane hospital at Lima, Summit county officials, however, conferred with Governor Davis at Cleveland today and contended that the Franklin county court had no jurisdiction in the Moffett case.

Whether Moffett will be electrocuted tonight was decidedly uncertain today, although plans for his execution were going forward. Officials pointed out that his case is entirely up to the governor, who may order the death sentence carried out, grant a reprieve or order Moffett sent to the Lima hospital.

Neither Moffett nor Chamblin had requested any special "last meal," prison officials said today. No one except prison officials saw either prisoner today. Both convicted men were reported calm and cool. Chamblin, who is a one-legged man, is unpopular with his fellow-prisoners in "death row." He was reported to have killed a young man and his girl companion in an automobile house near Portsmouth. Moffett, who keeps within the darkness of his death cell most of the time, and who is said to have hallucinations, was convicted of wife murder.

### Leslie Plans To Witness Electrocuting

Investative Andy Leslie is planning to go to Columbus to witness the execution of Roy Chamblin, who is scheduled to die in the electric chair at the Ohio penitentiary shortly after Thursday midnight for the murder of John W. Newman and Leslie Doyle on the Scioto Trail last October. Leslie was invited by the condemned man to be present when the mandate of the law is carried out and the officer expects to be there unless something urgent in his line of duty turns up in the meantime to prevent him making the trip to the capital.

## Bonus Bill

(Continued From Page One)  
The offering of a motion to reconsider, and asserting that this was in violation of the rules of the house. There was a hot discussion on the point of order.

### House Meets Earlier

By unanimous agreement the house met an hour earlier today than usual. When Speaker Gillett's gavel fell, there was a large attendance of members and the galleries were filled, the spectators including many former service men. Speaker Gillett overruled Mr. Garrett's point of order after a brief but sharp struggle between leaders on the two sides. Representative Campbell said the same point of order had been made two years ago and had been overruled at that time. The speaker holding that the rules committee was within its rights when it reported a resolution for suspension of the rules for six days.

### Clash With Chairman

Representative Garner, of Texas, ranking Democrat, on the ways and means committee, interrupted the rules committee chairman to ask that he state whether or not it was the purpose of the majority to prevent the minority from offering a motion to reconsider. Mr. Campbell replied that he would not engage in "the sort of quibbling" resorted to by the Democrats.

"Well, then, he honest enough with the house to tell the truth about the matter," retorted Mr. Garner.

## Income

(Continued from Page One)

Original estimates of revenues from income and profits taxes for the calendar year, high officials said, were \$1,740,000,000, while returns from the March installment now indicate the total for the year will be \$1,540,000,000.

Final reports on receipts for March will not be in hand before the end of the month, officials said, but reports received from collectors so far indicate that not more than \$400,000,000 will be received as compared with approximately \$728,000,000 for the corresponding quarter last year.

The shortage in tax collections on March 15, officials said, was due entirely to the business depression during 1921, the year upon which the taxes are due, as the new tax law did not become effective until the first of the year. The expected shortage of revenue, high officials asserted, would retard the treasury's program for continuing the reduction of the public debt as appropriations made up on the basis of budget estimates would have to be met by further government borrowing to provide the funds.

Secretary Mellon was understood to regard the drop in tax receipts as making it all the more difficult to take care of any proposed bonus legislation, cutting upon the treasury for financing.

## THE MARKETS

### NEW YORK STOCKS

NEW YORK, Mar. 23.—Northern Pacific registered an extreme decline of 3 points at the opening of today's stock market as a result of the reduction of the annual dividend from 7 to 5 per cent. Great Northern, on which dividend action recently was deferred, lost 1 1/2 points and the general list was reactionary. Among industrials declines extending from large fractions to one point were made by United States Rubber, Lima Locomotive and Standard Oil of New Jersey and California. The few moderate gains were limited to Mexican and Pan-American Petroleum, American Ice, Bethlehem Steel, Sumatra Tobacco and Pere Marquette preferred.

Little rallying power was shown by Northern Pacific and Great Northern added a heavy fraction to its early decline. Union Pacific also becoming heavy. Several junior railroads, especially Norfolk and Southern and Anaconda, were preferred, were strong. Pullman was again conspicuous for its three point rise and Studebaker, Railway Steel Spring, Kelsey Wheel and Sears-Roebuck gained 1 to 2 points. Reactions of 1 to 2 points marked the offerings of Davison Chemical, Industrial Alcohol, General Asphalt, and General Electric. The more prominent stocks, equipments, coalers and miscellaneous shares were dull at moderate changes. Call money opened at 4 1/2 per cent.

The stock market was under constant selling pressure today. High class rails and industrials sustained losses of 1 to 3 points with many specialties. Sales approximated \$50,000,000.

The closing was heavy.

**A Stubborn Cough Loosens Right Up**  
This home-made remedy is a wonder. It cures the most stubborn coughs and is cheap and simple.

Here is a home-made syrup which millions of people have found to be the most dependable means of breaking up stubborn coughs. It is cheap and simple, but very prompt in action. Under its healing, soothing influence, chest soreness goes, phlegm loosens, breathing becomes easier, tickling in throat stops and you get a good night's restful sleep. The usual throat and chest colds are cured by it in 24 hours or less. Nothing better for bronchitis, hoarseness, croup, throat tickle, bronchial asthma or winter cough.

To make this splendid cough syrup, pour 2½ ounces of Pinex into a pint bottle and fill the bottle with plain granulated sugar syrup and shake thoroughly. If you prefer use clarified molasses, honey, or corn syrup instead of sugar syrup. Either way, you get a full pint—a family supply—of much better cough syrup than you could buy ready-made for several times the money. Keeps perfectly and children love its pleasant taste. Pinex is a special and highly concentrated compound of genuine Norway pine extract, known the world over for its prompt healing effect upon the membranes.

To avoid disappointment ask your druggist for 2½ ounces of Pinex with full directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Ft. Wayne, Ind.

Mr. and Mrs. J. E. Jones of 1511 Ninth street had as dinner guests today, Mr. and Mrs. Frank Holden and daughter Katherine and son James of 1541 Ninth street and Mrs. Alva Moore of 527 Third street.

## AN ANNIVERSARY DAY

**M**ARCH 23rd, 1894, just twenty-eight years ago today, the first issue of the Portsmouth Daily Times appeared, while three years ago today the Sunday Morning Times, now the Sun-Times made its appearance. It is a long look back to 1894, and much newspaper history has been written in the intervening period. Portsmouth was then a town of about 10,000, now it is 40,000 and steadily growing in population and importance. The average circulation of the Times, the first year of its existence did not reach one thousand net paid. The circulation of the Evening Times Wednesday evening was 14,123. The average daily circulation of the Sunday Times, now the Sunday Sun-Times, when it started three years ago was close to 8,000, the exact figures not being at hand now. The circulation of the Sunday Sun-Times on Sunday, March 19th was 11,170. We mention these figures as showing the growth and development of the printing business, and also to show how thoroughly The Times covers its field. The Morning Sun, now in its second year had an average circulation of more than three times the average circulation of the Evening Times in the first year of its existence.

## WHISTLING DOWN THE WINDS

**G**OVERNOR DAVIS still continues to talk about his declaration that he will not be a candidate for re-election.

He repeats that he is altogether happy that he will not be, that all the leaders and the national administration was against his retirement, but he withdraws because the objects of his administration have been accomplished and he has saved the state two million dollars annually.

It is peculiar that the more this self effacing executive reiterates the firmer the public conviction his elimination is not voluntarily arrived at and that his denials are no more consonant with facts than are his claims.

Months ago it was free talk that he would be out of the race and that Harding wanted his place for his particular protégé, Carmi Thompson. Whatever Harding wanted, of course, the federal officials of the state also had to want and they consider themselves not only the leaders, but the actually official party of the state. They are the gentry that really pried Davis loose from an attempt at a second term. And they are not to be blamed for that either, that is not from a partisan standpoint, because they saw what everybody else saw, that Davis' goose was cooked and the most improbable of all things political was his re-election.

As for Davis' assertion that he saved the state two million dollars annually, it may be said of that that the proof of the pudding is in the eating. To say the kindest of the two million saved claim it is but negative—it would have cost the state two million more had Davis not been governor, not stopping at a little matter of tearing the constitution to shreds to get an alleged consolidation of departments and bureaus act through the legislature. That, however, is a mere theory. The Davis administration has cost the taxpayers millions more than did any other administration. A mere glance at the tax bill will show that incontrovertibly, to say nothing of the records of his legislature, which increased annual appropriations by millions and millions, every dollar of which is being spent.

The people of the state know these things; they can not be whistled down in feigned merriment.

## THE BIGGEST BUSINESS

**T**HE post office bill, carrying a total appropriation of \$623,773,000, has become a law.

Few people have conception of what the postal system of the country, the expense of delivering letters, papers and other mail to their doors by the government, but these figures will enlighten them and astound all.

However, it is more than likely that this vast sum appropriated will not meet all requirements and through the course of the year there will be deficiency appropriations of hundreds of thousands.

It is boasted of the postal service that it is the biggest and most efficient business of the country, yet it is conducted on a most unbusiness like policy, it does not pay a profit, it does not even meet expenses by almost incredible millions. Last year, for instance, its expenditures were \$463,000,000, its expenses \$620,000,000, a loss of \$157,000,000. Or in other words, while congress appropriated \$620,000,000 for operation it got back only \$463,000,000. And the oddest thing of all is the service could be so easily and fairly made to pay, simply by increasing the letter postage to two cents, postal card to two and making the newspapers and periodicals pay something near the cost of transporting them. Congress, however, will not do this because its members fear the wrath of large users of stamps and of the big newspapers and magazines. And so the small tax-payer has to shoulder more burdens that should not be his.

The cold, damp air of London is said not to agree with Ambassador Harvey and he is coming back. He will find the atmosphere over here hot and dry for him.

Harding believes in the independent functioning of each branch of government. That's the reason congress has hung up the bonus bill until it can get his approval in the matter.

To be sure the alliance with England and Japan promotes peace. What other reason could there be for the opposition to reducing the standing army to a figure somewhat near that before the war.

Again has Love's fair dream been shattered. The immediate marriage of Sims Hunt, a robust youth of 30, and Mrs. Emma McMahon, a gay widow of 100, both of Kansas City, was abandoned, when the bashful groom fled the wedding party at the advent of reporters, equipped with long pencils and cameras.

The deputation from the house bonus committee, that waited upon the President got scant encouragement. He told it, in view of what he had already said, he hadn't anything to say. As good as telling it he hadn't any advice to waste upon it.

Not a particularly auspicious time for predictions, but the guess that the G. O. P. is in for a regular cat and dog affair in its gubernatorial contest is safe.

## THE BIBLE IN PICTURES AND TEXT

ESAU AND JACOB.

**I**SAAC and Rebekah had two sons—Esau and Jacob—who were twins. And the two boys grew. Esau was a cunning hunter, a man of the fields. Jacob was a plain man, dwelling in tents. Isaac loved Esau because he did eat of his venison, but Rebekah loved Jacob. Now in these days the eldest son had what was called a birthright which made him chief among the children. Esau was the first born, but he despised his birthright. He came in from the field, faint, and sold his birthright for a mess of pottage.

**N**EW YORK, March 23.—The pearly clouded was unable to remember his lines but Williams would not appear without him. When Walker became a mental incompetent, Williams spent \$150 a week keeping him in the best quarters of a sanitarium. Although known as a sepiu comique he was an actor of serious parts. He had read deep of the classics and his library was carefully selected. He once told a friend who importuned him to essay more serious roles that the world would never take him seriously.

On Seventh Avenue is a small hotel, its patrons consist chiefly of stage dressers—men and women cast to play humble parts in dressing rooms of stars. They spread out the cosmetics, assist with the costumes, pack and unpack and ride in day coaches on tour.

Most of them have aspired to stage honors and failed and then hid themselves away in stuffy obscurity. The dean of the dressers is a trapeze performer of vaudeville who one night missed the net and ended his aerial career.

He hobbies to the dressing room of a famous comedian and when he has outfitted him for his part and sent him before the footlights, looks

his door and goes through the lines, taking bows when he hears the muffled applause from out front. They are hero worshippers basking in reflected glory and do not mingle with the people outside their calling. They know the caprices of temperament and all the secrets of the lives of stars.

Something new in restaurants. It has only private rooms and is in a fashionable East Side district. The dinner is selected in advance and one is served on dishes etched in gold. It has 10 different dining rooms furnished in regal style and it is so arranged that diners in one room may enter and leave without seeing any of the diners in other rooms. The covert charge for a table is \$50 and no more than six in a single party will be served. It is sponsored by one of the well known headwaiters of 10 years ago.

His Distinction

"Looky here, Gawge," said Mr. Henry Higgletham to his friend, Diggethorpe, "what do you always call your wife the old woman for? It don't sort of seem real respectful."

"Oh, shucks, now, Henry! I don't mean no disrespect to Ma's Jane when I call her 'old woman.' I mean it, right down complimentary to her, I just call her 'old woman' to sort of boast she ain't one of these here new women."—From Judge.

"Pa, what does 'out of the frying pan into the fire' mean?" asked Clarence.

"It means getting a divorce from a human talking machine and then marrying a red-headed widow, my son," replied Pa.

## Cherish My Love

(The Liberator)

Cherish my love before it dies at last. A day or so, a month, a fleeting year.

Cherish my body's whiteness and each tear That falls because all love is over-cast.

We talk of this and that, beloved friend. While shuddering gloom falls lightly on our house.

Nor mark the snowdrift on the impatient boughs. Hardly aware that spring and summer end.

Cherish my love for soon these eager hands Will cease to hold you warmly to my heart.

And we will learn how quickly flow the sands Some chill and quiet morning we will wake—

And weep our hearts out for each other's sake.
